Stockists now being appointed

Meet Julie Littler from The Littler Places

Julie is an architecture artist with a difference! Having previously worked as an Assistant Cruise Director and spending a lot of time in the Caribbean, Julie fell in love with the colours and the joyful nature of the islands. Combining this with her passion for architecture she matched the two and hand-paints pictures of iconic and favourite landmarks and buildings from around the world in bright and uplifting colours.

Each one starts with a simple pencil sketch and ends in a vibrant and detailed painting. These cheerful images are then made into beautiful quality giftware which sell all around the world. She has many collectors of her work.

‘It is well-known that bright colours bring happiness and positivity and when you want to remember a place in a souvenir, you want one which is going to make you smile. Each picture has a rainbow in it somewhere because everyone is cheerful when they see a rainbow!’

ANY artwork can be produced on ANY product
